

www.millenniumpower.net

Millennium Power Services, Inc. is a leading valve repair company with a complete range of products and services to meet our customer's needs. We provide the best service and products to ensure complete customer satisfaction. Millennium offers valve repair in both the field and shop. Our service team is available for any type of job, short turn around or long projects. Valve parts manufactured by Millennium meet or exceed OEM standards by using the best materials and processes available. We provide free shipping for evaluation of all valve parts. Any parts manufactured by Millennium come with a two year warranty. We stock an extensive amount of the products we represent and most are available to ship the same day. Contact one of our three conveniently located service shops 7 days a week, 24 hours a day.
