

www.millenniumpower.net

Millennium Power is proud to provide expanded NEW services for ALL hydraulic actuators common to the market of today —

Hydraulic actuators - Moog, Young & Franklin, Rexroth, Rexa, AMOT, Parker -

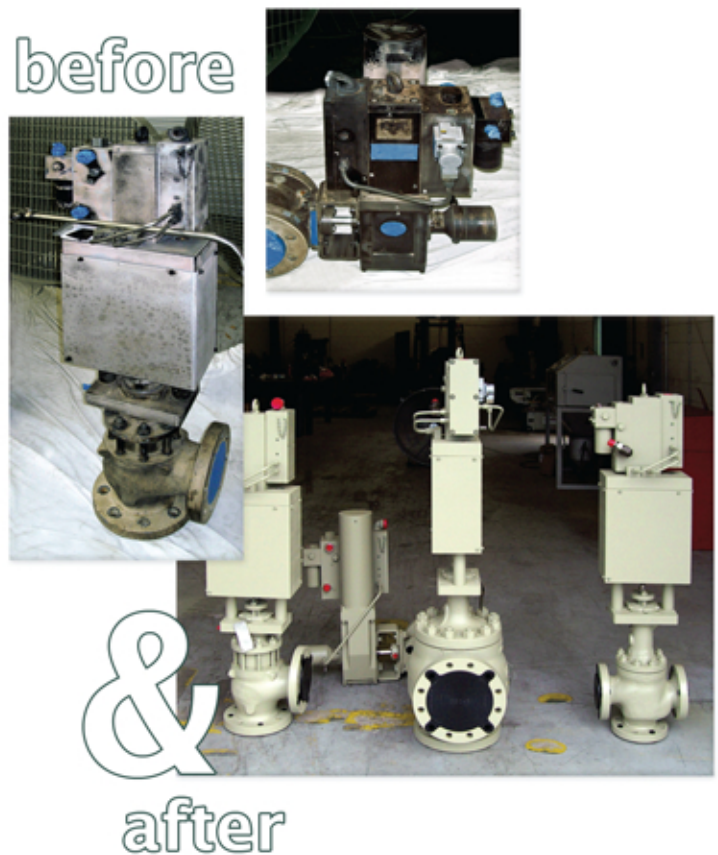

Normal turnaround time is 2 weeks from order date.

Our mission is to provide you, the end user, with quality repairs, manufacture of parts, and full range equipment testing for valve, actuator and servo.

- All parts used are O.E.M. equivalent or better
- All test procedures are equivalent or better
- All valves are tested to stringent guidelines for performance and documented accordingly

Documentation and pictures are provided for your records upon completion of repairs as well as progress pictures and reports so you will know before the work is completed what repairs are required. All this and more are provided to you as an alternative to the high pricing and long delivery times you are presently encountering. Make us your one stop shop for hydraulic actuator and valve repairs.

"It's time you benefit from our experience !"

Call the Millennium Team to discuss how we can meet your needs.
