

Capability Statement

www.millenniumpower.net

Millennium Power Services is a full-service parts manufacturing and valve repair company that has serviced a wide range of industries since 2000. Using state of the art technology (3D scanner) MPS is able to produce any part and significantly reduce manufacturing times as well as drive down costs for our customers. Our rapid parts delivery can be shipped anywhere in as little as a few days to a couple weeks vs 20+ weeks from OEM's.

Our reputation as a trusted valve repair and parts manufacturer is the source of our continued success. MPS has worked in some of the most complex work scopes in various industries and always deliver within the established deadlines- even for highly demanding short-term requests.

MPS will then manufacture any part quickly with precision, and deliver with unmatched lead times. Along with scanning, MPS will perform metallurgical and wear analysis and are able to make recommendations on improvements such as various coatings and heat treatments, which extend the operational life of the valve or part in question.
